

How to buy HKN tokens with Orderbook?

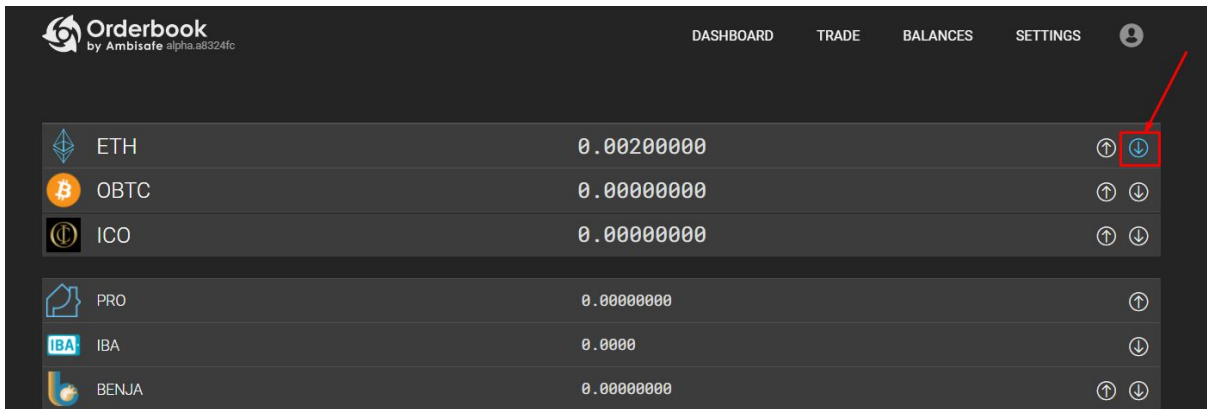

Step 1. Register an account on orderbook.io

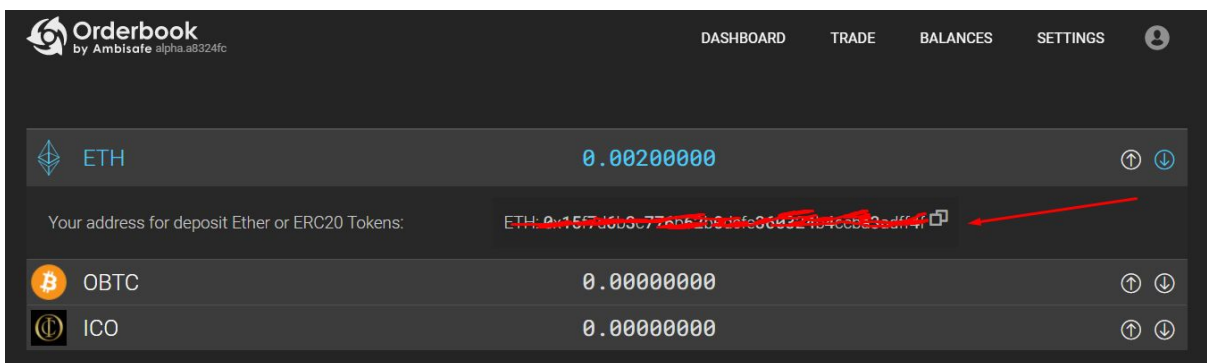

Step 2. Now you need to deposit an amount of ETH or BTC, that you want to spend on tokens. Click **BALANCES** button

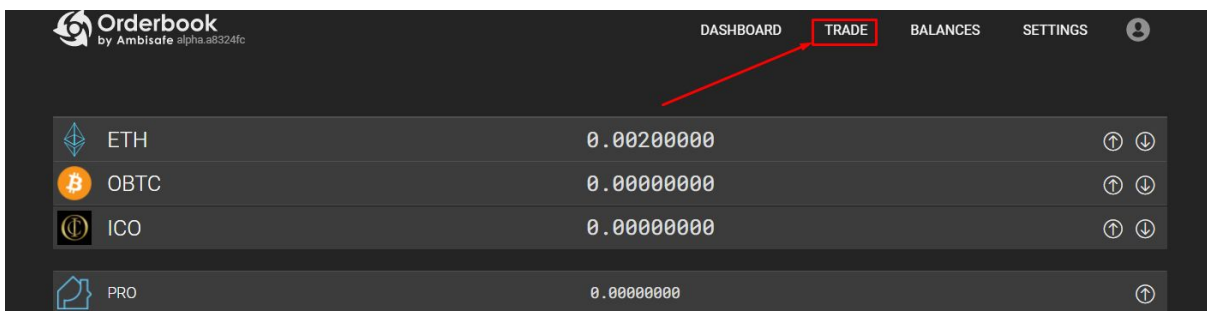

If you want to buy tokens for ETH, click down arrow button in the ETH row:

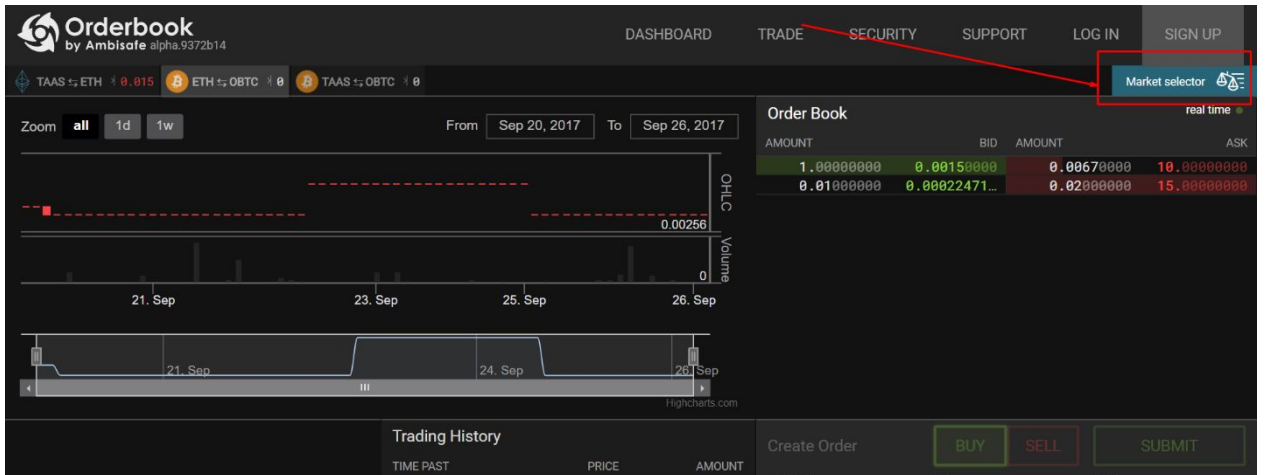

Step 3. Send needed amount of ETH or BTC to following address that you will see. It can takes some time, but in a while you will see you ETH or BTC balance changed:

Step 4. Now you have money on account, it is time to buy tokens! Click the **TRADE** button:

At the top right corner of your screen find the **MARKER SELECTOR** button

Choose appropriate pair of currency: **HKN -> ETH**, if you want to buy HKN for ethers, or **HKN -> BTC**, it for bitcoins. Then click **MARKET SELECTOR** again to close it

The screenshot shows the Market Selector interface with a list of Trade Pairs. The 'Trade pair filter' is set to 'PROP, BENJA, IBA' and the currency filter is set to 'ETH, BTC, USDT'. The list of Trade Pairs is as follows:

Asset ⇄ Asset	Last price

Step 7. Change the number of tokens to buy, set that number which you want to receive:

The screenshot shows the Orderbook interface by Ambisafe. At the top, there are navigation tabs: DASHBOARD, TRADE, BALANCES, and SETTINGS. Below the navigation, there are various market data points for different tokens. The main area features a trading chart with OHLC data and a volume indicator. On the right, there is an ORDER BOOK table showing bid and ask orders. At the bottom, there is a 'CREATE ORDER' form with fields for 'Amount of HKN' and 'Price in OBTC', and a 'Submit' button. A red box highlights the 'CREATE ORDER' form, and a red arrow points from the 'Submit' button in the order book to the 'Submit' button in the 'CREATE ORDER' form.

Date	Amount	Price
09/25/17 18:30	4796.16386954	0.0002085
